June 2007

Dear Customer,

The main purpose of HP Disk File Optimizer V3.0 is to update our general DFO audience with the "defragmentation of large capacity disk" feature and the current bug fixes. See release notes for listing.

Contents of this Kit:

- Disk File Optimizer (DFO) V3.0 software for OpenVMS Integrity servers, Alpha, and VAX systems.
- DFO V3.0 documentation:
  - SPD
  - Cover letter
  - Release Notes
  - Disk File Optimizer for OpenVMS Guide to Operations, V2.9
  - Disk File Optimizer for OpenVMS Installation Guide, V2.9

Thank you for your continued interest in our Disk File Optimizer product.

Sincerely,

OpenVMS Product Management
